

INVENTION AND INNOVATION

University of Colorado
Boulder

GEEN 3400

Turn your
creative ideas
into real-world
opportunities!

Spark your
imagination
through
hands-on creation

GEEN 3400: Invention and Innovation is a three credit-hour engineering elective designed to enhance your creativity through hands-on innovation and entrepreneurship.

- Design and prototype a potentially marketable product
- Learn to patent your product for further development
- Collaborate and contribute with other visionary engineers

PAST INVENTIONS INCLUDE:
SOLAR IPOD CHARGER
AVALANCHE SURVIVAL JACKET
HOME BIO-DIESEL SYSTEM
LIGHT EMITTING WHEEL
